

# SPEAKERS

November 5, 2011

**STEVE AMUNDSON** is a veteran of the United States Coast Guard who holds a degree in Chemistry. He is employed full time running the Thermophysical Nuclear Properties lab of a defense contractor. He is an avid supporter of the courageous men and women of our Armed Forces and rides with a motorcycle group that sponsors events on their behalf. Most important, he is an Islamic expert whose studies and national security briefings have revealed the **Muslim Brotherhood** (MB) is the most dangerous Islamist terrorist organization in the U.S. He is also well versed on **Project Mobilize** (a well-funded MB backed PAC), who backs Obama's re-election and the election of Islamists running for public office throughout our country. His writings continue to be published in many online and hard copy media sources. He spends the majority of his free time educating patriot groups about the MB, their "front" organizations and their efforts to supplant OUR Constitution with their Sharia Law in the U.S. Today he will share with us what he has learned about these groups and their subtle ways of infiltrating our communities and federal, state and local government. Mr. Amundson will be our first speaker. Come early for a cup of coffee and hear the important and informative talk about the Muslim Brotherhood and their well-funded efforts to destroy this country.

**WILL NORMAN GRIGG** comes again to update us on how close we are coming to a police state. Will is an award-winning columnist and investigative journalist, who became a contributor to *The New American* magazine in 1990, and was brought on staff in 1993. He was a Senior Editor for that publication between 1994 and October 2006. One man, targeted for execution by Vladimir Putin's regime, credits Mr. Grigg's exposes with helping to save his life. Another innocent man slated for professional ruin and perhaps even a prison term (a veteran counter-narcotics agent who exposed a CIA-supported drug network in the Northeast) credits Will's exposes with saving his career and freedom. Will has written five books, including "Freedom on the Altar: The United Nations Crusade against God and Family", "America's Engineered Decline" and "Liberty In Eclipse". He has done numerous national speaking tours, appeared on national television, and scores of national radio interviews. He is currently Editor-at-Large for The Right Source Media Enterprises including the exciting new e-zine *Pro Libertate*. It is a privilege to welcome Mr. Grigg back to UROC so that he can update us on the loss of freedoms. What we can do. Where we need to go from here. Join us for a fast paced hour of fact filled insight to the loss of personal freedoms through our Homeland Security.

**HOWARD PHILLIPS** is the Chairman of The Conservative Caucus (TCC), a non-partisan, nationwide grass-roots public policy advocacy group. TCC provided leadership in opposition to the Panama Canal and Carter-Brezhnev SALT II treaties during the 1970s. Since then TCC has led national campaigns to end judicial tyranny, restore a U.S. military presence at Panama, deploy SDI, eliminate the graduated income tax, and terminate Federal subsidies to ideological activist groups. Other TCC campaigns have involved opposition to NAFTA and the World Trade Organization (WTO), passage of the Constitution Restoration Act (CRA), and withdrawal from all institutions of the New World Order, as well as continuing efforts to oppose socialized medicine, abortion, and special rights for homosexuals. Mr. Phillips is a graduate of Harvard College and is President of Policy Analysis, Inc. (PAI), a for-profit consulting firm which publishes the bimonthly *Howard Phillips Issues and Strategy Bulletin (HPISB)*. He has received many honors over the years from the Young Americans for Freedom, the National Association of Pro-American, the Eagle Forum and from the Patrick Henry Center for Individual Liberty. Today, Mr. Phillips will share with us China's aggressiveness in the South China Seas and what that means to Taiwan and the U.S.

**RANDY THOMASSON** is a veteran pro-family leader and President of SaveCalifornia.com, standing strong for moral virtues for the common good. Since 1994, he has worked hard to educate, equip and inspire concerned citizens to embrace and promote moral virtues in their homes and communities. Mr. Thomasson represents the voices of parents, grandparents and concerned citizens who want their family values respected and protected. He and the SaveCalifornia.com team exist to 1) Teach and empower folks to stand for what's right in God's sight, 2) Shake up the establishment in government, media and the culture, 3) Challenge liberal forces that attack moral virtue, 4) Boldly speak and stand for Truth, no matter the outcome, and 5) Impact the next generation for good. Christian morality and beliefs founded this country. If we lose this foundation, all of our basic Constitutional beliefs will be lost. As George Washington said in his Farewell Speech, "Of all the dispositions and habits which lead to political prosperity, Religion and Morality are indispensable supports." Only with God's help and strong moral virtues will we be able to stand tall, speak up against the evil forces and win this battle to preserve our great country. Don't miss Mr. Thomasson's inspiring talk encouraging us to challenge those who attempt to destroy our country's moral fiber.
